Donn, Louise conveyed your comments and concerns regarding the extra page. Because Bill had also made an earlier comment about trying to get it down to two pages, I redid the Fact Sheet to include only the Process, no map, shortened up the spacing—that is Version 3, which is 4 pages in length.

Also attached is Version 2 that you and Bill initialed which is 6 pages in length. You can compare between the two.

Please advise as to whether Toeroek should go with Version 2 or 3.

Thank you.
